Authorization for this examiner's amendment was given in a telephone interview with Ms. Janeen Vilven on September 27, 2006.

Non-elected claims 33-40 are canceled.

The following is an examiner's statement of reasons for allowance: The prior arts fail to teach a method of analyzing a sample for the presence of a member of a specific binding pair comprising providing a polymeric microsphere having an electroactive molecule encapsulated within the polymeric microsphere and a first member of a specific binding pair is attached to the polymeric microsphere wherein the polymeric microsphere is not a liposome; introducing the sample; selecting for the polymeric microsphere by formation of a specific binding pair complex in fluid suspension; and releasing the electroactive molecule from the polymeric microsphere with an organic solvent; and detecting the specific binding pair complex via voltammetry or amperometry for the electroactive molecule released from the polymeric microsphere.
